Zeolith MED Toothpaste Homeopathy Compatible

MENTHOL-FREE, FLUORIDE-FREE NATURAL ORAL CARE AND CARIES PROPHYLAXIS WITH ZEOLITE, XYLITOL

This Zeolite toothpaste is menthol-free and thus meets the requirements of the classical homeopathic teaching. The classic detoxication specialist Zeolite is supplemented in this by xylitol. Zeolite removes contamination of the teeth and xylitol reduces plaque formation. The anti-cariogenic effect is due to the growth of caries-causing bacteria such as *Streptococcus mutans* being inhibited. They cannot metabolise xylitol and thus are starved. Furthermore, they are also prevented from adhering to the surface of the tooth as plaque bacteria. The slight xylitol-taste makes this toothpaste also suitable for children.

- natural effective substance complex without fluoride
- free of synthetic scents, flavours and preservatives
- reduces plaque bacteria, prevents caries
- without nano particles
- menthol-free – recommended for homeopathic treatment

CONTENTS AND PACKAGING

75 ml Zeolite toothpaste homeopathy compatible in a tube with screw-on cap, without outer packaging, produced purs. to cosmetic regulations.

INGREDIENTS

Zeolite, xylitol, Spearmint, chamomile extract, ginger root extract

EXPLANATION OF THE INGREDIENTS

AQUA	Base ingredient
SORBITOL	Effective substance, plant-based
ZEOLITE	Effective substance, mineral
HYDRATED SILICA	Thickening agent, grinding agent (silica)
GLYCERIN	Moisturiser, plant-based
CITRUS AURANTIUM DULCIS (ORANGE) FRUIT WATER	Scent and effective substance (essential orange oil)
XYLITOL	Solvent, moistening agent (wood sugar), plant-based
SODIUM COCO-SULPHATE	Natural surfactant
XANTHAN GUM	Binding agent, gel former, plant-based
CHAMOMILLA RECUTITA (MATRICARIA) FLOWER EXTRACT	Effective substance (chamomile)
CITRUS AURANTIUM DULCIS (ORANGE) PEEL OIL	Effective substance (orange)
ZINGIBER OFFICINALE (GINGER) ROOT EXTRACT	Effective substance (ginger)
CITRIC ACID	Effective substance (citric acid)
POTASSIUM SORBATE	Preservative (potassium sorbate)
SODIUM BENZOATE	Preservative (sodium sorbate)
LIMONENE	Scent, plant-based
MENTHA SPICATA OIL	Due to the lack of menthol in Spearmint, which is a mint species, it is milder than the peppermint and therefore often more compatible with children as well as being homeopathically compatible. Effects: stimulating, astringent, antiseptic, local numbing, decongesting, strengthening the nerves.
CITRAL	Scent, plant-based
